RAYMOND ANNOUNCES NEW PRODUCT AT THE INTERNATIONAL POULTY SHOW JANUARY 23-25, IN ATLANTA, GA

Extreme Environment Corrosion Package Extends Pallet Truck Life

- Model 8300 walkie pallet truck (6,000-lb capacity)
- Model 8400 end-rider pallet truck (6,000-lb capacity)
- Model 102XM walkie pallet truck (4,500-lb capacity)

The Extreme Environment Corrosion Package for Raymond's most popular pallet trucks helps to withstand harsh applications such as processing for the food, pet food, poultry, meat and fish industries as well as cold storage environments.

With galvanized parts and protective splashguards, the package helps to extend the life of the trucks by up to twice as long, while significantly reducing cost of ownership. The package is available on the following *Raymond*[®] trucks:
